- a) Click on the eCD zip file you downloaded. The Archive Utility included in the Mac operating system “Snow Leopard”, “Leopard” or “Tiger” will unzip the file and create automatically a folder for it. Figure 2 depicts the Archive Utility as it unarchive the eCD zip file for the meeting 201005\_PTHE.zip.

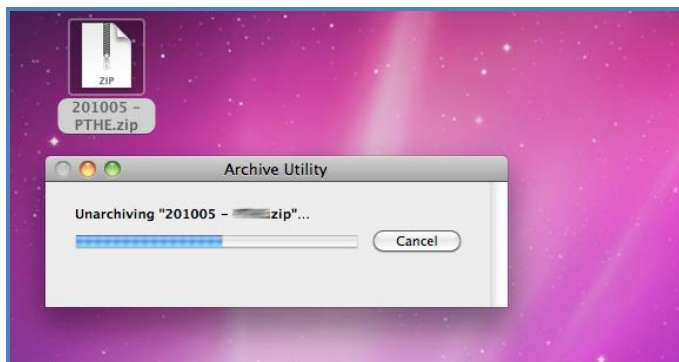

Figure 2 – Mac Archive Utility unzipping the a zip file containing the eCD for the PTHE study section.

- b) Once the unzipping is completed, a folder is automatically created. You can open the folder to use the files. Figure 3 below shows the content of the folder contained in the eCD zip file after it was unzipped.
